

School district going into spring break!

Students looking forward to brief vacation as end of school year comes into view

“I’ll be heading to florida for my vacation!” Carl, a local student stated.

The date is 3/23/2024 and local area school district KUSD is preparing for finals week and releasing their students into spring break. Students across the area are excitedly awaiting their vacation. Many having plans for travel, meeting with family, and attending various events.

The break serves as a well deserved, and much needed, break for students and teachers as the final quarter of the school year comes into focus. Serving as the midway point for many classes. Allowing students and staff to recharge for this final stretch is a much appreciated tradition.

We wish the students and staff at Kenosha Unified School District a happy, relaxing, and enjoyable spring break. As we can clearly tell the locals look forward to it.
